

27 OCTOBER PROGRAMME

“RECYCLING IN THE AUTOMOTIVE INDUSTRY”

10:00 Introduction

10:30 Driving change: A circular economy for automotive plastic. Hybrid.

11:00 DECOAT: Recycling of coated and painted textile and plastic materials.

12:00 ALMA: Redesigning the future of e-mobility through new, sustainable & innovative solutions. Hybrid.

12:30 Overview on FiberUse. Hybrid.

13:10 What environmental benefits can we expect from “Circular Business Models”? Hybrid.

15:00 Ecobulk: Redesigning Circular Composite Components for Automotive.

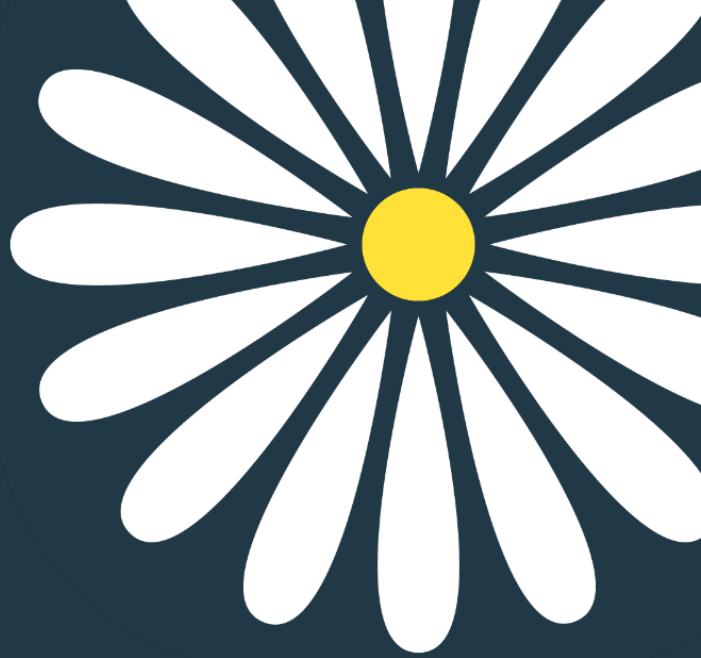

16:00 Panel Discussion.

The projects have received funding from the European Union's Horizon 2020 Research and Innovation Program
